

The WAA Difference!

What makes WAA different than the next 50 aviation businesses.....???

SIMPLE!

We are SPECIALIZED and DEDICATED professional Aerial Applicators.

This is what we do full time, all the time.

As active members of the Alberta Aerial Applicators Association, the Canadian Aerial Applicators Association and the National Agricultural Aviation Association we consistently participate in aviation and aerial application training and advancement.

WAA utilizes the most leading edge equipment available and spares no cost.

With many years in the industry we have developed a reputation and industry connections with numerous professionals that allows WAA to find the answer and solve the problem if we don't already have it. This is absolutely priceless in today's ever changing environment and in this highly unique profession.

At the end of the day it's because we care. This is our passion, our livelihood and our world.

As said by owner/operator Corey Lange...

“We spray every acre like it's our own...period”.

WETASKIWIN AERIAL APPLICATORS LTD.
